

Plass media, suspension design Luca Nichetto 2015

FOSCARINI

Plass media transports the great appeal, exciting presence and magical luminosity of Plass - a project that as its name suggests is a combination of plastic and glass – into a smaller dimension. the familiar image of a Murano pearl is interpreted on a different scale, using a 21st century material and process: rotationally moulded polycarbonate. as a result of the technology used, the finishes have slight irregularities that recall the imperfections of glass, underlined by the dual light source.

Plass media, suspension technical info

FOSCARINI

Description

Suspension lamp with diffused and direct light. The transparent polycarbonate diffuser is achieved using rotational moulding, a technique which makes it possible to create hollow bodies of big sizes without the need for any welding. Brushed aluminum internal mount, stainless steel suspension cable and transparent electrical cable. Ceiling rose with galvanised metal bracket and glossy chromed metal cover.

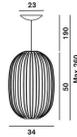

Materials Rotational moulded polycarbonate and steel

Colors grey, light blue

Model

Plass media
suspension

Weight

net kg: 3,50
gross kg: 0,00

Packaging

vol. m3: 0,000
n. boxes: 0

Bulbs

Hal 1x116W E27+1x75W GU10

Led/Fluo 1x20W E27+1x8W GU10

Certifications

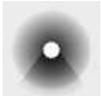

Energy Class

A⁺ A B C

Brightness light

semi-diffused and direct down light
